I navigated for my brother a few  
times in early 1970s. Car was  
not used much late 70s as my brother  
brought a 100/4 which he preferred.  
I transported car on trailer in 1981  
to Broadstone put in garage where it has  
remained ever since

You asked if it is modified  
it has the later 3000 gear box  
and overdrive.

I don't know much about  
Healeys but I think there  
was a later six port head  
and I am sure it would have  
that fitted.  
also may have larger  
Su Carbs fitted but not  
sure
