Dear Mr Filby

Thank you so much for writing to me regarding my old mini 'NEM 62L'.

I am delighted to know that you are intending to get it going again.

There's quite a story that goes with it and don't want to bore you too much!

My Uncle Jack from Liverpool bought it in

1973. It was his first and only car. He used it twice a week to visit my Aunty. I bought it off him for £400 as he became ill. It had done 18,000 miles and still had the original tyres on it, this was around 1994. I drove it locally having had a young child.

In 1995 I went to a Rod Stewart concert along the M56 and the wall of one tyre collapsed. The tyre tread was in good condition but as if it had been standing in a garage for sometime this happened.

The garage I took it

to were delighted to see  
the original tyre and kept  
it for a keepsake!

I used the car a short  
time after and after 43,000  
miles on the clock it  
remained in my garage and  
was a useful cupboard and  
storage inside and outside  
for 27 years!

I hope all of the above  
helps you and if you need  
any more information please  
don't hesitate to contact  
me.

Enjoy your mini project  
and if possible I would  
appreciate a photograph of  
the finished product,

Kind regards,  
June Oliver
