

To whom it may concern

Dear Purchaser,

This Frog-eyed Sprite – known in the family as “Kaz” for obvious reasons - was purchased by my mother for my late father as a 70<sup>th</sup> birthday present. He had talked for many years about wanting to own a Frog-eyed Sprite and, when he eventually got Kaz, he was very proud of her.

He never took her very far. Generally, he would buzz around the lanes of North Dorset in her. Sometimes, he would have one of his children or grandchildren as a passenger. They were always thrilled - and slightly scared - by the experience. Other favourite trips were to the local pub or to the annual village fete. Generally, my father loved showing her off and, although he never drove it far, took great pleasure from it. It always put a smile on his face.

Hopefully, Kaz will provide the same joy and happiness in her new home. As a family, we are very sad to see her go.

Best wishes,

David
