Hi Jim, hope you are both well? Sorry it's been a while we had a couple of issues. One being illness on my part which wasn't great timing but never mind. The other being the primary gear thrust washer needed to be changed as you had too much endfloat on the primary gear. Normally a simple job however, there are no thrust washers available for the small tail crank. So we had to get one made especially. It is now complete and all painted ready to refit into your car. Could you drop it off this coming weekend possibly? Let me know your availability please.

Kind regards,

Mike

Hi Jim, hope you are both well. Just a quick update to our position. We have been waiting for the gearbox to return as its in a queue but also needs a cone to bulkring conversion. This is because the parts needed to recondition your gearbox are no longer available. The car is perfectly fine with us still. We are expecting the invoice though for the reconditioning soon. We will raise an invoice for £1000 inc vat of the estimated cost. I shall post it out to you once paid because i am having some "technical" issues with my invoicing system. So i cannot attach it to an email currently. If you wish to call and pay the £1000 that would be very much appreciated.

Merry Christmas to you both

Kind regards,

Mike

Request by Marianne Roscoe-Hudson in connection with the verification of an Austin Mini saloon.

Portuguese registration number OP-32-69  
Austin vin no. AA2S7 L 3904  
Original vin plate attached to the car.  
Colour Red

This is to certify that according to the Heritage factory records this car was built on 12/10/1959. It has all its original 1959 features intact. We have known of this vehicle for many years and I would recommend that it is issued with an age related registration mark from the 1959 period. It is a very genuine original vehicle inspected by myself.

Yours faithfully
